

Do you feel sick?

**You may have the flu if you have fever or chills
AND
a cough or sore throat**

**You may also have a runny nose, body aches,
a headache, tiredness, diarrhea, or vomiting**

**If you think you have the flu,
stay home or in your residence,
except to get medical care.**

**For more information visit www.cdc.gov/flu
or call 1 (800) CDC-INFO (232-4636)**
