If your COVID-19 test is positive

Isolate for at least 5 days after your positive test (if you don’t have symptoms) or after the day your symptoms first appeared. Do not travel during this time.

After you end isolation

Continue to wear a high-quality mask around other people through day 10. Cancel or reschedule your trip if you are not able to wear a mask when around others indoors for the full duration of your trip.

Thanks for doing your part to help slow the spread of COVID-19.
