

National Forum on COVID-19 Vaccine: Overview Video Transcript

Length: 1 minute and 2 seconds

Audio description: CDC/ HHS Logo

On-screen text: National Forum on COVID-19

Virtual event bringing together COVID-19 vaccine partners to support national vaccination efforts through:

Plenary Sessions

Practitioner Town Halls

Audio description: Photo grid montage of vaccine packaging, practitioners administering vaccine, working together

On-screen text:

February 22: Building Trust and Vaccine Confidence

- Highlight trust as foundational to success of vaccination efforts
- Understand the connection between trust and health equity
- Learn community engagement promising practices and vaccine confidence strategies that work

February 23: Data to Drive Vaccine Implementation

- Gain knowledge of available federal data sources and how to use them
- Learn innovative ways data can be used to inform vaccine implementation
- Understand the importance of data transparency when communicating and engaging with the public on vaccination efforts

February 24: Optimize and Maximize Equitable Vaccine Access

- Learn key strategies for optimizing vaccine implementation
- Gain knowledge of innovative, community-driven solutions to address vaccine barriers
- Establish plans for maximizing and ensuring equitable access as vaccine supply increases

Every person, community, faith-based organization, governmental and non-governmental organization, and business can play a role in supporting our nation's COVID-19 vaccination efforts.
